IX. Informed Consent to Treat REGARDING: Chiropractic Adjustments Modalities and Therapeutic Procedures:

Our goals are to provide a detailed assessment of your current health status and provide to you the resources for a highly engaged and healthy body, which is functioning at its absolute peak potential. Essential is a healthy nervous system functioning free from interference called **subluxations**. Congratulations on taking an important step for your health through chiropractic evaluation!

I have been advised that chiropractic care, like all forms of health care, holds certain risks. While the risk are most often very minimal, in rare cases, complications such as sprain/strain injuries, irritation of a disc condition, and although rare, minor fractures, and possible stroke, which occurs at a rate between one instance per one million to one per two million, have been associated with chiropractic adjustments. Treatment objectives as well as the risks associated with chiropractic adjustments and, all other procedures provided at Body Healing Chiropractic have been explained to me to my satisfaction and I have conveyed my understanding of both to the doctor.

Dr. Angie Cuevas is aware of these complications, and in order to minimize their occurrence she will take precautions. These precautions include, but are not limited to my taking a detailed clinical history of you and examining you for any defect, which would cause a complication. This examination may include the use of x-rays. The use of x-ray equipment may pose a risk if you are pregnant.

FEMALES ONLY: please read carefully and check the boxes, include the appropriate date, then sign below if you understand and have no further questions, otherwise see our receptionist for further explanation.

The first day of my last menstrual cycle was on _____/_____/_____

At the present time: ❑ I am pregnant ❑ I am not pregnant ❑ I may possibly be pregnant

After careful consideration, I do hereby consent to treatment by any means, method, and or techniques, the doctor deems necessary to treat my condition at any time throughout the entire clinical course of my care.

WHAT TO EXPECT AFTER YOUR FIRST ADJUSTMENT

Please read the following information carefully. Sign the bottom of the sheet to indicate that you understand the instructions and information given.

1. If you have never been adjusted, or if it has been awhile since your last adjustment, you may experience soreness or discomfort for a few hours to a few days. This is a normal reaction to chiropractic adjustments.

2. If you are sore, use ice packs on the affected area. Ice therapy consists of the use of ice packs at 20-minute intervals followed by 40 minutes of rest. This can be repeated as often as needed. Do not apply ice directly to bare skin. Always protect skin with a thin covering such as a shirt or light towel. Cover the ice pack with a thick towel to retain the cold.

3. Do not use heat except under the doctor's instruction. Heat may aggravate your injury.

4. Stay away from heavy lifting or repetitive movements until the doctor indicates you are ready for normal activities. Strenuous athletic activities such as running, lifting weights, impact aerobics, racquetball, tennis, skiing, bowling, etc. should be avoided. Other things to avoid are yard work such as raking, digging, lifting heavy objects such as groceries, pets and children, and any other activities that could aggravate or re-injure your condition. As a rule of thumb, stay away from any activity or movement that increases your pain unless the doctor has recommended otherwise.

5. Unless indicated by the doctor, you may return to work/school after your appointment.

6. If a sudden movement causes sharp or severe pain, or if you experience severe swelling, contact the clinic at (407) 757-0256. After hours, call or text (754) 221-5571.

I have read and understand the instructions given for my follow-up care.
